

Conventional 12 VDC fire detector base with relay

KZ705R

The KZ705R is a 5 contact detector base for use with the KL731/DP331I detectors from GE-Interlogix. In addition to the normal base and remote indication connectors, the KZ705R also has an additional earth terminal connector to allow for easy terminations of a possible cable screen. A built in 12 V relay makes it ideal for use on low voltage intrusion systems.

Specifications

Dimensions (Ø x h)	100 x 29 mm
Operating Voltage	12 V ± 10%
Current Consumption	12 A
Isolation Current	-
Isolation Resistance	-
Sounder Frequency	-
Sound Output	
@ 3 mA	-
@ 5 mA	-
Environmental Characteristics	
Operating Temperature	-10 °C to +70 °C
Storage Temperature	-10 °C to +70 °C
Relative Humidity	95 % (non cond.)

Ordering Information

KZ705R Conventional 12 VDC fire detector base with relay

- Polarity sensitive
- 12 V relay for 4 wire systems
- Additional earth terminal available
- Remote indicator contact available
